

Protekt Safety Solutions was established in 2004 to supply workwear, personal protective equipment (ppe) and associated products to businesses throughout the North West. At Protekt we have many years experience, working in a variety of industries, of managing health and safety solutions through the purchase of suitable workwear/equipment.

Safety footwear is an area in which we have particular expertise, we work with our clients to ensure that footwear supplied is both suitable for the working environment and within the given budget. For a FREE no obligation footwear review please get in touch.

Hi-Visibility clothing is another area in which we specialise, with our in-house garment printing facility we can print your company logo or name onto all our hi-vis range which we carry in stock for quick turnaround. You'll be surprised how customised garments can be very affordable and help you to promote your company image.

Should you have a particular requirement which you would like help with, any requests/questions or would like specific content to appear on this website [please email me](#) or call me on **07917 033 044**

Finally please keep coming back to the website and thank you for your custom.

Andrew Lord
